Mr. and Mrs. Joseph Amaral Sr. of Irvington received word recently from their son, S.1/c GEORGE W. AMARAL, who is with the Army in the Aleutians. Another son, Pfc. ARTHUR A. AMARAL, is with the First Army in Germany.

He says they are eating well now since mixing with the German civilians who are hostile to our boys, blaming them for being driven out of their homes. They aren't intelligent enough to know it's for their own good!

Still another son, TONY AMARAL, is now somewhere with the Merchant Marine, while a son-in-law, Pfc. ALBERT MARTIN, is now in New Guinea, and a grandson, CHARLES ROSE, S.3/c, with the Navy in Seattle.

MELVIN HOWE, former staff sergeant stationed at Ft. McDowell, yesterday received his medical discharge from Dibble General Hospital and is back in civilian life. He had been in the Army for six and a half years.

The ex-sergeant's family has been living for some time with his mother, Mrs. Irene Howe of Vallejo Street, Niles. Howe had worked at the James Graham Manufacturing Company prior to his induction. He will return to his former job as soon as he gets settled with his family.

Fred Ayres of Niles has received letters from both his sons, Pvt. MELVIN AYRES hospitalized in England, and Pvt. CLARENCE AYRES, stationed somewhere in the South Seas.

The letter from Melvin Ayres reads:

Dear Dad:
How does this find you? I really hope you are in good health and enjoying yourself. I am getting along fine as could be expected. My hand is still a little stiff, but I think I can use it eventually, with exercising it pretty often.

The sun is shining today. Sure looks better than it did a few months ago. There is a fellow here who used to be stationed at Visalia Airdrome. He is in the Air Corps in England but is a patient here now.

I expect to receive mail soon. I've been here about long enough. Say hello to everyone for me and tell them to write me often.

Lots of love and luck,
your son, Melvin

APRICOT CROP GONE WITH THE WIND

Fred Duffie, agricultural inspector for Southern Alameda County, estimates that recent storms and cold weather have reduced the apricot crop from a third to a half. "The costs were there, all right," said Duffie, "which is a little surprising in view of the fact that often following a bumper crop—as of last year—there is a shy crop." That is what is discouraging orchardists—they had a good crop coming on for this year but the rain and cold brought on the much-feared jacket rot. The fruit formed and dried up right on the tree. Some was blown off by the strong winds.

CENTERVILLE BOY DIES IN GERMANY

News was received this week by Mr. and Mrs. Manuel Bernardo of Centerville that their son, Stanley, who recently had been promoted to staff sergeant, had been killed March 21, while serving with Patton's army in Germany.

He was the brother of Raymond Bernardo of Newark, Eugene Bernardo of Centerville, Eleanor Maciel of Centerville, Bernice Bernardo of Beverly Hills, and of Joseph Bernardo, who has been missing since the fall of Bataan. S/Sgt. Bernardo, who was 20, attended Washington Union High School.

RADIO CAREER FINE FOR GIRLS, SAYS JANE LEE

"There are wonderful opportunities for women who take up radio work as a career," thus said Jane Lee of radio station KPO, who was guest speaker at the Tuesday meeting of the Country Club of Washington Township. Miss Lee recommended that any girl interested in radio work take up the study of journalism as a preliminary. She also told of the two-year course given by some of the big broadcasting companies to high school graduates. Upon completion of this course they are qualified to make their entry into radio work.

Miss Lee, now Jane Lee, but known in former years as Martha Lee, is no stranger to the women of the township. In previous years she has been judge at cake contests and has put on cooking schools.

Miss Patsy James, accompanied by Mrs. Harriet Thornburg on the piano, provided the remainder of the program. During the business session, Miss Barbara Ponti made a timely plea to the club for contribution toward the purchase of a painting to be hung with the collection at the Washington Union High School. The picture project is a memorial to servicemen in the alumni.

Mrs. Tom Power gave a report on the Alameda County monthly meeting. Three new members were elected: Miss Mildred Nauert, Mrs. Bernice Joseph and Mrs. Donald Hegen.

A nominating committee comprised of Mrs. Frank Dusterberry, Mrs. F. V. Jones, and Mrs. Gladys Williamson was appointed by Mrs. Hirsch to nominate officers for the coming year. The may meeting will see the election and installation of the nominees.

With the economic administration he was engaged in controlling exports to Brazil and in securing strategic war materials, principally tantalite, quartz crystal and mica.

He graduated from Santa Clara University in law in 1931 and for a time was assistant district attorney in San Luis Obispo.

Tony Martin this week won the election for fire commissioner in Newark when he defeated Louis Caldeira by a vote of 153 to 51.

FARM ADVISER MORRISON ASKS FOR USED FATS

California housewives, particularly farm women, are being asked to increase their contributions of used kitchen fats to help make up the current deficit in fats-oil supplies needed for military and civilian production. T. O. Morrison, Alameda County Farm Adviser, declared today.

The nation's quota has been set at 250,000,000 pounds of used household fats, an increase of eight million pounds over last year, according to Morrison.

During 1944 used fat salvage collections in California averaged around a million and a half pounds per month, according to W. R. Ralston, specialist of the Agricultural Extension Service, University of California, who is leading the salvage campaign in rural areas.

"Housewives in California responded magnificently last year and the total collections amounted to more than ten per cent of the used kitchen fats collected in the entire nation," Ralston said.

This year, he pointed out, much of the hoped-for increase is expected to come from rural areas where, according to surveys, only slightly more than fifty per cent of the farm homes were saving and contributing their used fats.

City homes, because of meat shortages and high ration point values, cannot be expected to match the expected increase from farm homes where pork, beef, lamb and poultry, in many instances, are home-raised and ration free. Ralston also urged that so-called "killing fats" be salvaged and turned in to the nearest butcher, or rendering plant. Used kitchen fats are worth two red points and four cents per pound. The "killing fats" do not rate the red points but do command the current market price.

"We are joining with the Alameda County Salvage Committee in urging farm housewives to make every effort to increase their fat salvage contributions," Morrison said. "Used fats are important to our war production and they are also of considerable importance in manufacturing many products used daily on the farms."

RED CROSS DRIVE TOUCHES THE TOP

The Red Cross drive in Washington Township had netted \$16,500 yesterday, according to Chairman Robert Blacow. This represents an increase of more than \$2,000 over last year's receipts, although it is still slightly under the township's higher quota for this year of \$16,715.

Blacow states, however, that last-minute contributions probably will put the drive over the quota.

"The township can feel proud," he said, "of this excellent record. Our quota is rather out of line, I think, with quotas for neighboring towns, some of which have easily oversubscribed. Although our population scarcely warrants our high quota we've practically filled it. This is a good record."

LOCAL YOUTH IN THRILLING RESCUE

Ens. Lyle A. Zamenek of San Jose, nephew of Mrs. R. J. Wright of Irvington, came into the news prominently Wednesday when word of his heroism was published nationally and broadcast over the radio.

Piloting a carrier torpedo plane off the Kerama Islands, Ryukyus, Zamenek had dropped his bombs and was seeking secondary targets for strafing when Japanese anti-aircraft fire hit his plane and downed it on a Jap-held island.

A fighter pilot who witnessed the forced landing radioed word which was heard by a rescue squadron.

Zamenek and his crew carried their rubber lifeboat to the seashore and energetically paddled away. The rescue plane alighted nearby and took the survivors aboard. It was being fired upon sporadically by the Japs. None of the survivors were injured.

IRVINGTON BOY HELPS BEAT GIANTS

Bill Krueger, son of Mr. and Mrs. L. W. Krueger of Irvington, now at the U. S. Naval Training School for physical instructors at Annapolis, Md., played second base for the training center in a game that ended in the defeat of the New York Giants by a score of 8 to 4.

Young Krueger, former Coast-Leaguer with Sacramento until late in the season last year, assisted with the athletic program at Farragut, Idaho, before going east. He has been playing ball with the training center team that consists largely of big league players.

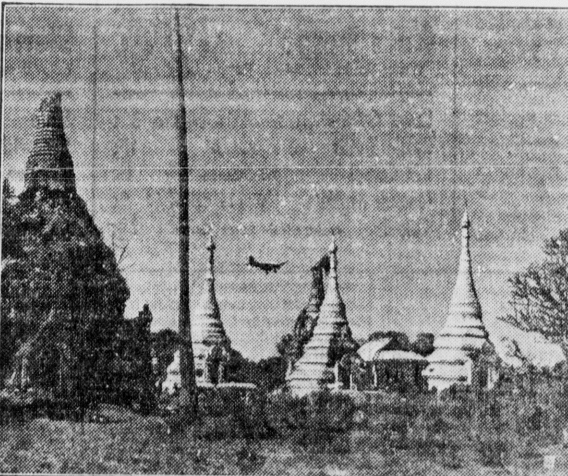

He played errorless ball against the Giants, collected a two-base hit, drawing in one run. Six thousand blue-clad spectators watched their team win.

ANY OLD CLOTHES, SHOES, BLANKETS FOR WAR RELIEF

Who knows? After the current clothes drive for United Nations relief, Washington Township may become famous as the community that turned in the CLEANEST clothes of any community in the nation!

If this happy event takes place, it will be due to the efforts of Henry Miller, township cleaner, who has made arrangements with a large Oakland plant to have all the soiled clothes turned in here cleaned without charge.

Chairman of collection, Miller feels that clothing will be turned in which perhaps otherwise wouldn't, due to the natural reluctance of people to hand over soiled garments.

Now you need have no complications about turning in that sweater or coat if it is soiled around the collar.

Reports from collection centers around the township indicate that people are giving generously of their clothing. Dave Janeiro of Decoto stated that he already has collected, with the enthusiastic assistance of Mrs. Lopez, two or three truckloads of clothing. Tony Baptiste, manager of the Decoto Theater, is running slides in both English and Spanish to assist the drive. Bill Helm of the Niles Theater also is running slides on his screen.

In Warm Springs, too, collections are coming in in fine style. Leaflets listing collection centers have been distributed to all school children, to be taken home to parents urging them to bundle up the clothing, shoes and blankets for which they have no further use, and take them to a collection center.

Township Chairman E. F. Glassbrook reports good co-operation of his township chairmen, as well as the faculties of all schools. Both the Niles Rotary Club and Centerville Lions Club are supporting the drive as club projects.

Good dishes requiring no or low points

Even if you're down to your last few ration points there's no need to look forward to dull, skimpy meals. Let ingenuity take the place of points and serve meals so delightfully different there'll be no suspicion of point skimping. Here are recipes for two dishes that will receive acclaim even if your points are few.

CHEESE FONDUE

1 cup milk 1/2 tsp. pepper
1 cup soft bread crumbs, lightly packed 3 cups coarsely grated American cheese
1 tbsp. shortening 3 eggs
1/2 tsp. salt

Melt milk in 1 1/2 to 2-qt. double boiler. Add crumbs, shortening, seasonings, and cheese. Stir until cheese is melted. Cool slightly. Beat egg whites with rotary beater until stiff but not dry. Beat egg yolks with same beater until thick and lemon-colored. Add to milk and crumb mixture. Fold in egg whites. Pour into well-greased 2-qt. casserole or baking dish. Bake in slow oven (325° F.) 1 hour, or until firm to touch. Serve at once with Egg Sauce (recipe follows). Serves 6 to 8.

EGG SAUCE

2 tbsps. shortening 1/2 tsp. salt
2 tbsps. all-purpose flour 1/2 tsp. prepared mustard
1 cup milk 2 hard-cooked eggs

Melt shortening in double boiler. Blend in flour. Add milk gradually, stirring until smooth. Cook over rapidly boiling water 10 to 15 minutes, or until thickened. Add salt, mustard, and coarsely diced eggs. Makes 1 1/2 cups sauce.

TAMALE PIE

1 lb. lean beef, pork or lamb 2 1/2 cups seeded raisins
1 cup hominy grits 1 tsp. chili powder
1/2 cup finely chopped onion 1/2 tsp. pepper
2 tbsps. butter or margarine

Cut meat into 1/2-inch cubes; simmer in salted water to cover about 45 minutes, or until tender. Drain broth from meat; measure, adding boiling water to make 3 cups liquid; add hominy grits to boiling broth. Cook 10 minutes. Place half of the hominy grits in bottom of well-greased 1 1/2-qt. baking dish; cover with remaining ingredients; top with hominy grits. Bake in moderate oven (350° F.) about 45 minutes, or until well browned. Brush top with butter or margarine about 10 minutes before removing from oven. Serves 6 to 8.

Visits In Bakersfield

Mrs. Stella Kutzner is spending a month with friends in Bakersfield.

I received a letter from a Niles boy "somewhere in the South Pacific." He prefers to remain anonymous. He takes The Register, of course—and what do you think he was interested in?

Well, he was very happy to know that the young people were trying to get a youth canteen started. He says the fellows talk a lot about juvenile delinquency, and he thinks this would be a fine way to combat it.

And what was the other thing which interested him? It was the face-lifting project on Niles Main Street! He thinks it's a wonderful plan, and gives the boys something to look forward to when they get back.

THOSE MUMPS AGAIN

I am writing this column at the kitchen table instead of at the office desk. It is on account of the mumps. No, I haven't got them, but my 7-year-old son has. It is rather funny that a little thing like mumps can upset a whole routine. I am working like crazy trying to get this column written (this is an opening for someone to say "why?") and reading about Uncle Wiggly—aloud—at the same time. At about this point I could cheerfully poison Uncle Wiggly!

Incidentally, how do YOU amuse YOUR child when he has the mumps? Perhaps other harassed mothers would like to know.

FEED-BAG DRESSES

What will milady wear for spring? Well, it COULD be feed bags!

Don't look so shocked. There's a woman here in Niles who has out-fitted herself, her daughter, and made kitchen curtains out of feed bags!

Her mother in Texas sends her the feed bags, which are made of a fine, sturdy, linen-like material on which is printed the most attractive designs we've seen in a long time! There are different patterns—some of sprigs of flowers, others with little fans, one especially appealing to children: tiny farm boys. Then there is an all-over pattern of red and white stripes, and one with red and white check.

And the colors! Look all over San Francisco or Oakland and you won't find anything as lovely—soft greens and lavenders and blues.

Texas women, it seem, make regular trips to outlying farms and pick up these feed bags—a yard square—for 20 or 25 cents apiece!

REBEKAH NOTES

Niles Rebekahs will hold their regular meeting tonight (Friday). The social hour will follow the business meeting, with Ivy Cull, Fern Mitte and Bea Fournier serving on the refreshment committee.

HERE'S WHY IT PAYS TO BUY IHC PARTS

They're genuine. That means they are exactly like the parts that were in your machine when it was new. You bought a Farmall, or any other McCormick-Deering product, because you figured it was the best. It wasn't delivered to you with any substitute, "just-as-good," make-shift parts in it. And it's poor business to put that kind of parts in your equipment now.

Insist on genuine IHC parts. You'll get your money's worth and keep your equipment in first-class shape—just like new.

With a war on and more food to raise, you need all the mechanical help you can get. Our shop, our mechanics and our big parts department are ready to do everything we can to keep your equipment in A-1 shape. McCormick-Deering is our line and Service our middle name.

'WATCH OUT ANGEL' COMING TO CURRAN

"Watch Out, Angel" has been given an attractive frame abounding in chance galore to keep the swift comedy rolling, plenty of witty and humorous lines, absurd situations portrayed by a cast of well known players including Lucien Littlefield, Lester Allen, Eden Nicholas, Donald Kerr, Parker Gee, Marilyn Hare, Carol Haney, Anne Triola and Heidi Olsen.

To supply the necessary background which would serve to project this theme across to the public, Josef Myrow and Eddie De-lange, who need no introduction in the field of music, have composed a score that justifies this colorful presentation, including "Where is the Boss?", "I Love You But Good," "To Be Young," "It's a Great Life If You Weaken," "Half a Dream to Go," "Publicity," "Out of My Mind," and the theme song, "Watch Out, Angel!"

Not only do the many excellent musical numbers lift this production to the top of 1945 offerings, but the choreography by Aida Roadbent, another artist of repute, fills all the niches with "angels", beautifully costumed angels who dance to the rhythm and the melody.

A special orchestra accompanies this group of players and very ably blends all of the cast into a euphonious whole.

Seats are now selling at the Curran, San Francisco, where "Watch Out, Angel" begins a limited engagement Tuesday evening, with matinees on Saturday and Sunday.

'UNREALITY' IS SUBJECT FOR CHRISTIAN SCIENTISTS

For the subject, "Unreality," the Christian Science golden text on Sunday, April 8, reads: "Judge not according to the appearance, but judge righteous judgment" (John 7:24).

One of the verses in this lesson-sermon is 1 Corinthians 1:19: "For it is written, I will destroy the wisdom of the wise, and will bring to nothing the understanding of the prudent."

What type of gas furnace is best fitted to your home heating demands? How will your gas heating equipment cope with unusually cold weather? Where will the furnace registers and cold air returns be placed? And will furniture placement be affected by the heat outlets in the home?

Yes, it pays to plan your heating system in the home carefully. Such careful planning can eliminate chances of discomfort and at the same time give you heating that is a perfect job to live with and costs less to use.

Before you plan your new home too definitely or remodel your present one, be sure to read and clip magazine articles and booklets about combination furnace-playrooms, and the blower-type gas furnace that fits compactly in closets or in the attic. When these new and better appliances become available, your heating contractor will be able to supply you. He can also help you with your planning.

REG'LAR FELLERS—Ideal Proving Ground

The FARMERS CORNER

by RALPH H. TAYLOR

Executive Secretary Agricultural Council of California

The developing threat of drastic food shortages in the United States, which may make this the worst year of the war from the standpoint of food scarcity, certainly cannot be charged up to the farming industry, for American farmers have stayed by their jobs, from sunup to sundown, in an all-out patriotic effort to meet the tremendous demands of the home and war fronts.

California farmers, in common with farmers throughout the Na-

tion, have outstripped all previous production records in response to the constantly mounting demand—and in most branches of agriculture production has reached peaks never before believed possible.

It should be stated for the record, however, that farmers have achieved their goals only by overcoming innumerable obstacles, resulting from governmental bungling and mismanagement, and that production undoubtedly

would have reached still higher levels if Washington administrators had heeded the advice of those in the farming industry.

Only a few days ago, four of the Nation's major farm organizations—the Farm Bureau Federation, the Grange, the National Council of Farmer Cooperatives, and the National Milk Producers Federation—charged that some draft boards "are taking practically all farm boys under 26" and were forced to appeal to Congress for immediate action to strengthen the Tydings amendment.

Thousands of farms, which had first lost their farm hands to urban war plants with inflated wage scales, recently have been hard hit by the drafting of farm boys who were essential to their continued operation at full scale production.

The four farm organizations, in their appeal to Congress for effective action to halt this raiding of agriculture's depleted manpower supply, declared:

"Reports from heavy producing agricultural areas indicate that despite Tyding's amendment, draft boards in many areas are taking practically all farm boys under 26. These are trained, experienced workers who are key men and cannot be replaced by prisoners of war or foreign labor, and domestic replacements are unavailable. It is an alarming situation in view of our increasing need for maximum production of vital food."
